What is your favorite mission model? Why?

---

---

---

What real world problems can be demonstrated with this model?

---

---

---

How do the Game Rules and field setup impact your strategy in the Robot game?

---

---

---

Which missions are located near each other on the field?

---

---

Which missions have similar elements?

---

---

---

Which missions could be grouped together for maximum points?

---

---

---

What is your game strategy? How many Missions will you attempt in the event?

---

---

---

What are some obstacles you may encounter on the field?

---

---

---

How can you program your robot to be fast AND reliable on the Challenge field?

---

---

---

Sketch your robot solution. What does the base look like? Does it have sensors and attachments?

What changes did you make to your robot?

---

---

---

How is the final design different from your first design? Sketch the changes.

---

---

---

## ***Sensors & Programming***

What sensors does your robot use?

---

---

---

How does the robot use the sensors to get around the field?

---

---

---

---

---

Did you team use any MyBlocks? If yes, what do they do and how do they work?

---

---

---

---

---

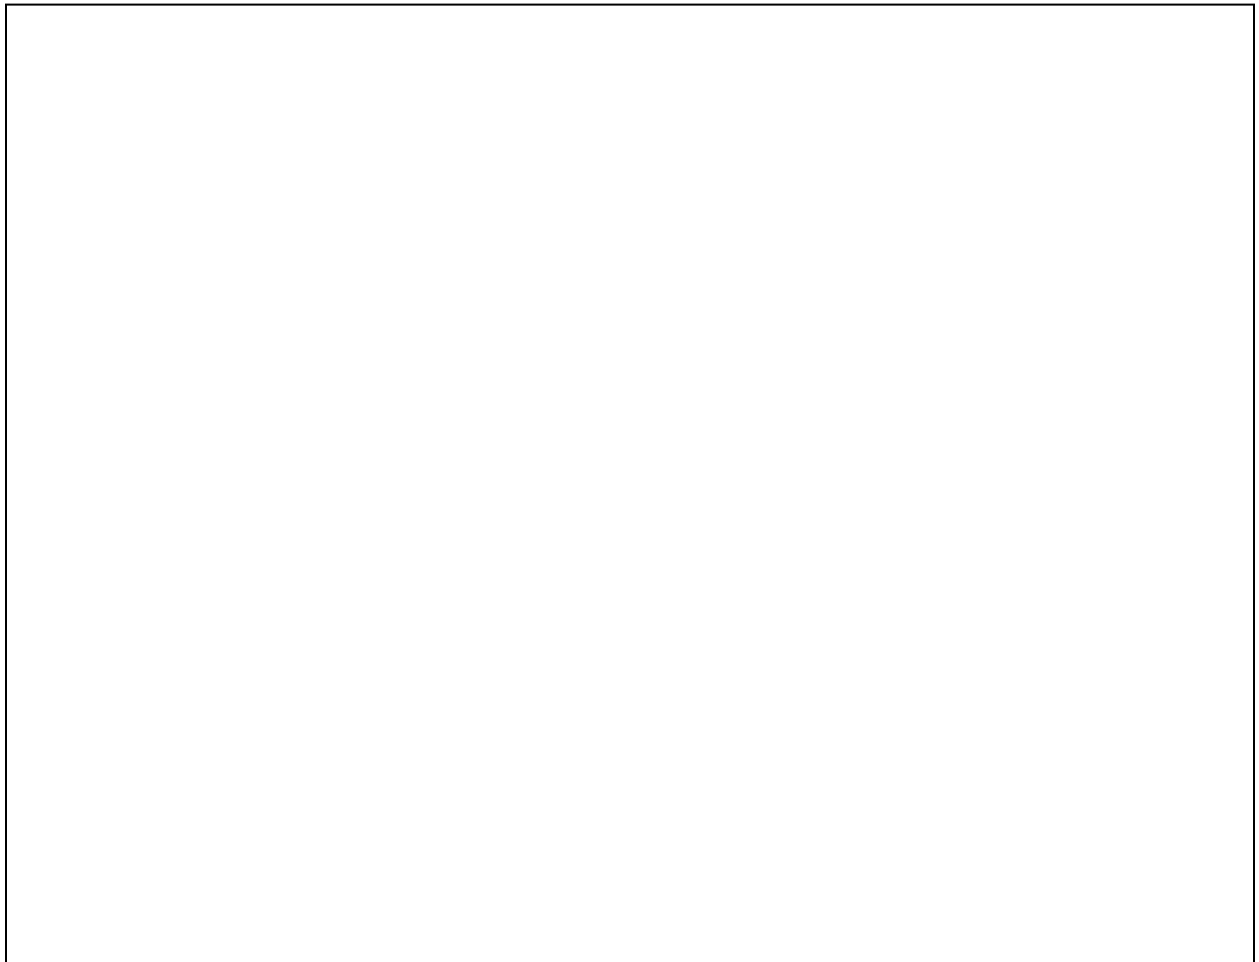

**Mission Name:** \_\_\_\_\_

What was your first idea for solving this mission? (Sketch or photo your idea)

---

---

---

How did your idea work when you tested it?

---

---

---

Did you make any changes to the robot design to improve the robot performance? What were they?

---

---

---

---

Did you make any changes to the programming to improve the robot performance? What were they?

---

---

---

---

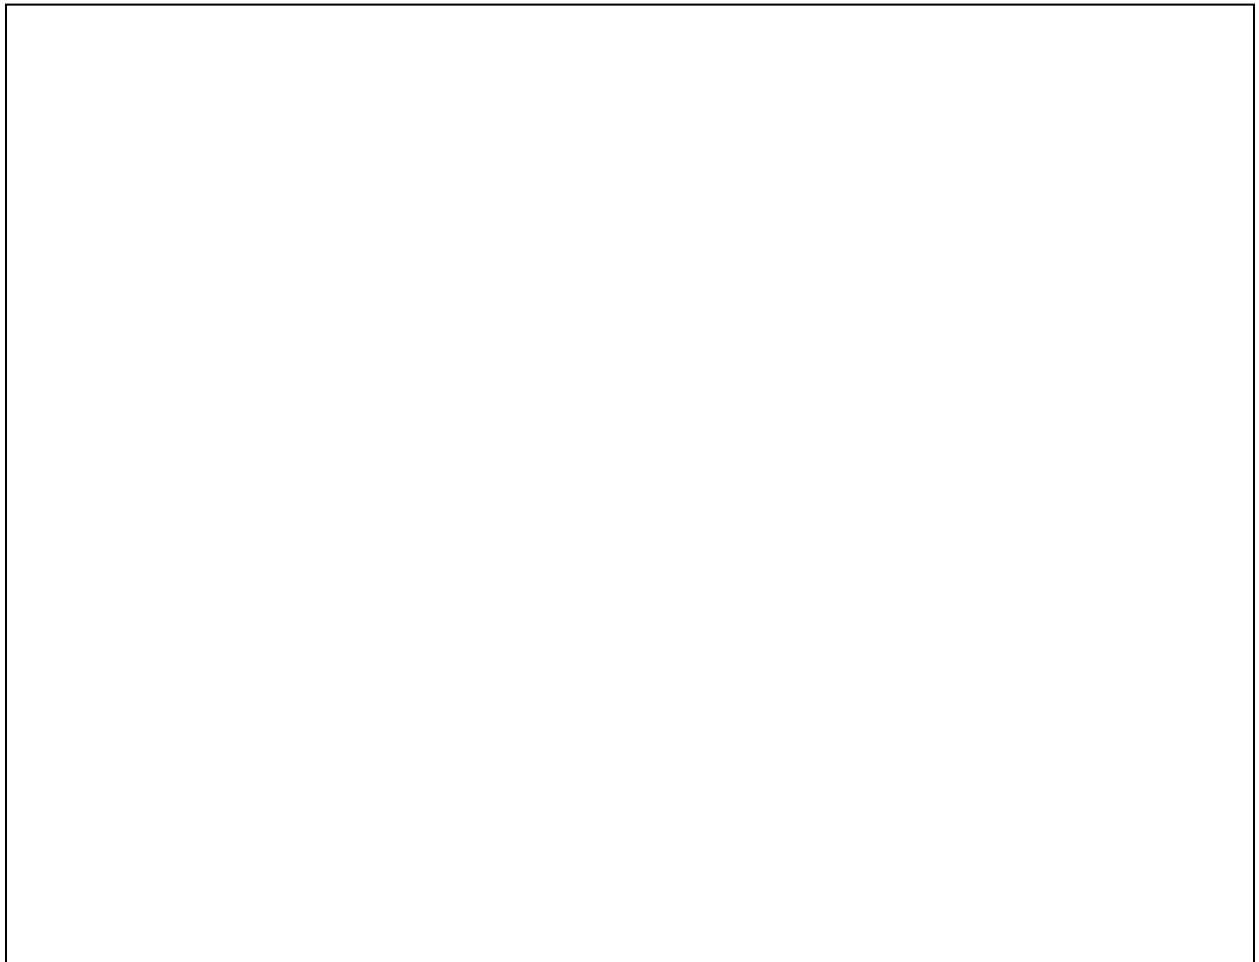

**Mission Name:** \_\_\_\_\_

What was your first idea for solving this mission? (Sketch or photo your idea)

# *Innovation Project*

**CITY  
SHAPER**

What do you find most interesting about the challenge?

---

---

---

What do you already know about the challenge topic?

---

---

---

What are some project topics your team considered?

---

---

---

What criteria did you team use to decide what your project topic would be?

---

---

---

What is the building or public space your team selected for the project?

---

What is the problem your team identified?

---

---

---

Who is the client for this job?

---

---

What are some constraints on your project solution?

---

---

---

How did your project solution change over time as you worked on it?

---

---

---

---

---

---

---

What research sources did you consult for this project?

---

---

---

---

Who did you identify as experts and why?

---

---

---

---

Expert Name:

---

Question:

---

---

---

Answer:

---

---

---

---

Expert Name:

---

Question:

---

---

---

Answer:

---

---

---

---

How did your solution evolve after consulting with your expert?

---

---

---

---

Who did you share your solutions with?

---

---

---

---

Sketch your project solution or a particular component of your solution.

# Core Values

What did you learn about working together as a team?

---

---

---

What are your key takeaways from this experience?

---

---

---

What was the most fun you had this season?

---

---

---
